Discard: Retain

TO WEIGHTS AND MEASURES OFFICIALS

**SUBJECT: Water Meter Training**

The Division of Measurement Standards (DMS) is seeking to collect water meter testing data to present to the National Conference on Weights and Measures. At the same time, the DMS Device Compliance Program wishes to provide county training on water meter testing procedures.

If your county has a water meter testing facility, please notify your Device Compliance field staff representative the next time you plan to test 5/8 inch meters (either gallon or cubic foot) when your staff will be available to receive training.

If you have any questions, please contact Ronald Flores, Supervising Special Investigator, at (916) 229-3045.

Sincerely,

Edmund E. Williams  
Director
